

Ref.: 8000-0015

**QD-1THFC**

DIN rail fan-coil thermostat

**Description**

Programmable thermostat for fan-coil units. It may operate in winter and in summer with up to 8 programmable schedules per season. The thermostat may also control minimum and maximum temperature during off periods when in automatic mode. It controls the valve and 3 ventilation speeds. The valve and speed relays switch the voltage applied to the Common input that may be isolated from mains or 230V.

**Accessories**

It requires one QUADRA wall switch connected via BUS that operates as room temperature sensor.

**Electrical characteristics**

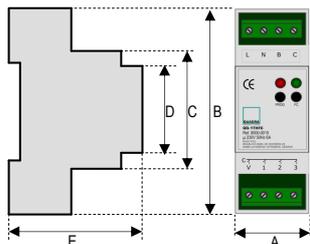

Power supply: 230 V 50 Hz  
 Consumption: 0.5 W  
 Maximum current: 6 A total  
 Fan-coil voltage: 12VDC to 230VAC

**Certifications**

CE  
 IEC 60669-2-1  
 Low voltage directive 2014/35/EU  
 EMC directive 2014/30/EU

**Dimensions**

A = 35 mm (2 modules)  
 B = 90 mm  
 C = 62 mm  
 D = 46 mm  
 E = 58 mm
